

2024

KEEP OUR REPUBLIC ANNUAL REPORT

Founded in 2020, Keep Our Republic is a non-partisan civic education organization committed to the vitality of America's democracy by promoting trust in elections, the rule of law and constitutional checks and balances.

SNAPSHOT OF 2024 ACTIVITIES

Community Conversations

Leading up to this year's important election, we hosted over 30 trust-building events, connecting Wisconsin, Pennsylvania, and Michigan community members to their election officials and experts to discuss how elections work and educate about election law.

Continuing Legal Education

Our legal education seminars cumulatively attracted upward of 2,700 attorneys. Additionally, over 400 pages of first of its kind legal analysis were drafted for responses by state leadership to crises on Election Day and in the post-election period. The American Bar Association awarded KOR the "Unsung Hero of Democracy" award for our work to protect democracy and the rule of law.

Support for Election Administrators

We organized impactful events with diverse election administrators. Starting with assembling over 45 clerks from across Michigan last winter ahead of the February Presidential primary, to media trainings for Wisconsin clerks just ahead of the General Election, KOR supported and amplified the voices of those on the frontlines.

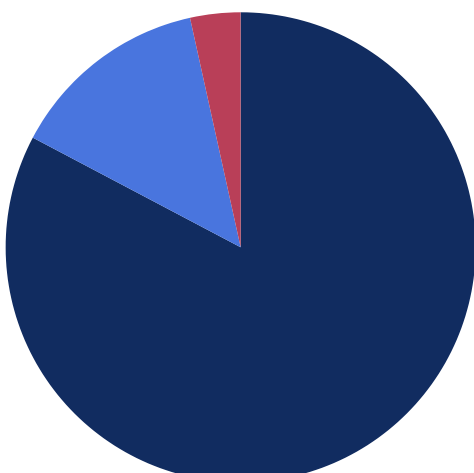

Non-Partisan Resource for Media

September's unprecedented "Ballots and Battlegrounds" forum brought together the top election officials from Arizona, Georgia, Michigan, North Carolina, Pennsylvania, and Wisconsin to brief the media – 26 different outlets, including multiple reporters from the Washington Post, Reuters and USA Today – who left with a detailed understanding of state specific safeguards and information to support accurate reporting on the election process from the professionals who run them.

Contributions to KOR

DONATE

Our work has been made possible by grants from foundations as well as one time and recurring donations from diverse individuals across our country. We are humbled by your support and commitment to our non-partisan civic education. Your support has helped to combat misinformation and mitigate threats to our electoral system.

Reaching more community members across counties in contested states, continued legal education and support of administrators beyond this year's general election will require additional fundraising.
